Leda Bologni, PhD, Head of Unit ART-ER, Bologna (I)

Leda is graduated in mechanical engineering with a PhD in Robotics. Her skills concern the innovation policies at regional, Italian and European level, the management of innovation and of programmes for Research and Development as well as of technological transfer. She is external expert, independent evaluator and reviewer for the European Commission. Since 1990, she has worked at ASTER (now ART-ER), the in-house providing company for innovation of the Emilia-Romagna Region. She has been manager of the Technical Assistance Unit for the implementation of the Regional Law for Innovation, and she has managed the regional technological foresight and entrepreneurial discovery processes for the regional Smart Specialization Strategy definition. Moreover, she was national expert for the S3.
She is Head of Unit "Innovation infrastructures" in ART-ER and from 2016 is managing the relocation in Bologna of the HPC Data Centre of ECMWF.

Leda is member of the Governing Boards of the National Cluster Fabbrica Intelligente, of the Associazione Big Data and of the Strategic Committee of the National competence centre industry 4.0 BI-REX.
From 2018, Leda is member of the Strategic Forum on IPCEI established by the EC.
