

Romain Bordes. PhD in Molecular Chemistry and Supramolecular Chemistry at the Laboratoire des IMRCP, Université Paul sabatier, Toulouse, France, 2004 – 2007; Title “Synthesis, physicochemistry and polymerization of ion paired surfactants based on norbornene” (Supervisor: Dr. Isabelle Rico-Lattes). Postdoctoral positions at the Chalmers University of Technology, Dpt. of Chemical and Biological Engineering, Gothenburg, Sweden: Synthesis and study of amino acid based surfactants, funding by BASF, Group of Krister Holmberg, November 2007- November 2009. Present position: Chalmers University of Technology, Dpt. of Chemical and Biological Engineering, Applied Surface Chemistry, Project leader (Senior Scientist for the VINN Excellence centre SuMo Biomaterials).
