Russia

Sergey Dubkov, PhD

Senior Lecturer, Researcher

Biosketch

Dubkov Sergey was born in 1988 in Kaluga region. In 2012, he graduated with honors from MIET in the field of "electronics and nanoelectronics". In 2015 he defended his thesis for the degree of candidate of technical sciences. From 2008 to the present, she has been working at MIET. From 2016 to the present, senior lecturer at the Institute for Advanced Materials and Technologies (course of lectures for bachelors "Physical fundamentals of nanoelectronics and nanosystems"). He is the Winner of the Youth Innovation Contest Program ("UMNIK") (2011), Winner of the scholarship of the President of the Russian Federation for young scientists and graduate students (2013-2015), Winner of the 2019 competition for state support of young Russian Candidate Scientists "Grant of the President of the Russian Federation" 2019-2020. Author of more than 40 scientific papers, including 8 patents for invention.

Lecture courses

Physical bases of nanoelectronics and nanosystems

Scientific activity

Author of more than 40 scientific papers, including 8 patents for invention. Responsible performer and head of research, the results of which are implemented in enterprises and in the educational process.

Research Interests:

Promising technological processes of micro- and nanoelectronics, new materials for nanoelectronic devices, in particular: chemical vapor deposition, thin film deposition, carbon nanomaterials,

nanostructured materials, synthesis of nanoparticles and nanowires, nanomaterials for power engineering, emission structures, additive technologies.

Patents:

1. Gavrilov S.A., Gromov D.G., Dubkov S.V., Mironov A.E., Shulyaev A.S. A method of manufacturing interconnects semiconductor device. No. 2421847. 06/20/2011
2. Gavrilov S.A., Gromov D.G., Dubkov S.V., Mironov A.E., Shulyaev A.S. A method of manufacturing ordered nanostructures. No. 2462785. 09/27/2012
3. Gromov D.G., Dubkov S.V., Shulyatev A.S., Lebedev E.A., Mironov A.E. A method of manufacturing a high-capacity planar capacitor. No. 2533010. 09/18/2014.
4. Rogachev MS, Gromov D. G., Shtern Y.I., Dubkov S.V., Shtern M.Yu. The method of obtaining a thermoelectric element. No. RU 2601243. 2016.
5. Shulyaev A.S., Lebedev E.A., Gromov D.G., Dubkov S.V., Rygalin B.N. A method of manufacturing interconnects semiconductor devices. No. 2593415. Date of issue: 07/12/2016.
