

Nicolas Gueninchault - CV

Nicolas holds a M.E. from the Université of Marne la Vallée and a PhD. from Paris Sciences et Lettres University (Paris), both in Mechanics. Following his doctoral studies on the observation and the simulation of grain bulk crystal plasticity, he joined the Copenhagen based startup Xnovo Technology as an application scientist, where he has participated in the development of the LabDCT module, which enables crystallographic imaging with laboratory instruments. Since 2019, he has joined Zeiss as the Product and application specialist for the EMEA-LATAM region, specialized in X-ray microscopy instruments for Zeiss' Research and Microscopy Solutions segment.
