

Dr. Piotr KOWALCZEWSKI is the leader of numerical simulations laboratory and IP manager at XTPL. In 2011–2015 he took a prestigious PhD scholarship as part of the EU’s Marie Curie ITN (PROPHET project) at the University of Pavia, Italy, where he defended his doctoral thesis on the simulation of optical and electrical phenomena in solar cells with disordered photonic structures. He was a research scientist at the University of St. Andrews, Scotland, and at STMicroelectronics, Catania, Italy. He co-authored a number of frequently cited papers in the field of physics, optics, and numerical simulations
