

**Enrico Negro** is Tenure-track Assistant Professor at the Department of Industrial Engineering of the University of Padova, where he belongs to the research group "*Chemistry of Materials for the Metamorphosis and the Storage of electrochemical Energy – CheMaMSE*" headed by Prof. Vito Di Noto. Enrico Negro's activities are mainly involved with the structural and electrochemical studies of advanced functional materials for energy conversion and storage devices, with a particular reference to proton-exchange membrane fuel cells, redox flow batteries and secondary batteries. He authored/co-authored over 80 papers and 20 patents. His h-index is 31, with more than 2800 citations.
