

Emiliano Schena (Ph.D. 2007) is Associate Professor of Measurements at Università Campus Bio-Medico di Roma (UCBM), Rome, Italy. He has a Ph.D., a M.Sc. and a B.Sc. in BioEngineering from UCBM, all with honours. He coordinates or is involved as a key person in several National and European research projects. He coordinates a research group (about 10 research fellows) at UCBM with a growing track record in the development and application of wearable systems in medicine, in the field of physiological measurements, and in the use of fiber optic technology to design measurement systems. He serves as editorial board member and as reviewer of several high-impacted scientific journals. During the last years, he has spent several periods as visiting professor in prestigious international research institutions (i.e., Technion Israel Institute of Technology, City of Hope Medical Center, Sungkyunkwan University, IHU of Strasbourg...). He became Chair of the Italy Chapter of the IEEE Sensors Council in 2018, IEEE senior member in 2019, and counselor of the IEEE Student Branch of UCBM in 2019. He served as general chair and as technical program chairs of Workshops and conferences organized by the IEEE. He authored several book chapters and more than 250 scientific articles.
