Short Curriculum Vitae

Fabio Sonvico, born in Como (Italy), the 9th of December 1974, is Associate Professor at the Department of Pharmacy of the University of Parma (Italy).

At the University of Parma, he is member of the Teaching Board of the PhD Programme "Drug Sciences" (2015-2020), of the Program Committee of the Master (II level) in "Pharmaceutical and Regulatory Strategies Technology and Regulatory Affairs" (2015-2020), and also the Quality and Accreditation Lead of the Interdepartmental Center for Health Products – Biopharmanet TEC (2015-2020), a laboratory part of the High Technology Network of the Emilia Romagna Region (Italy).

In 2016, he has been appointed by the start-up pharmaceutical company PlumeStars as Scientific Expert for the development and registration of the Orphan Drug HYALCIS to treat mesothelioma, that since has received orphan drug designation both from EMA and FDA.

He serves since December 2016 as member of the Executive Committee of EUFEPS and since he holds the role of Treasurer.

Current research interests include the design and development of innovative drug delivery systems for unmet clinical needs using biodegradable micro- and nanoparticles, with a special emphasis on the nasal and pulmonary administration.

He is author of 97 papers, 7 book chapters and 7 patents on various aspect of pharmaceutical technology.
